

Fetish - notes

About the documentary:

Kaitlin Prest explores the world of Club Sin, a monthly event organized at Cafe Cleopatra in Montreal. This documentary portrait reveals one of the communities inhabiting this special showbar, which is in danger of expropriation. Although the development plan is part of a cultural revitalization project, the culture at Cafe Cleopatra doesn't fit into the city's vision.

In this ten minute piece, you'll get a taste of a world that deserves to stay at the heart of centreville.

Kaitlin Prest studies communications at Concordia University.
