

# Unloggable

## Compilation

A Lot Can Happen Under a Minute

We are looking for 50-60 tracks to create an hour long compilation

We need artists from across Canada! And from different genres

The campaign is to bring attention to the fact that songs under 60 seconds don't get logged or recognized as CanCon or artist recognition

We will be creating physical copies of the CD and sending it to radio stations across the country! It will also be available for Digital Download

Honorarium of \$200 for selected tracks! Upon signing of Use-Agreement.

When submitting a track we need .WAV file, (441 khz)

Mastered = 0 peak

Un-Mastered = -6db

We can do some limited mastering in house.

We have a standard file naming structure =  
ThisArtist\_ThisSong\_myemail.wav
